 Al Jadaf, Dubai, UAE

**MAJESTIC S.B.C.T. L.L.C. A CERTIFIED  
9001:2015\_ISO 45001:2018\_OHSAS 8001:2007  
BASED IN AL JADAF, DUBAI, UNITED ARAB EMIRATES**

Majestic S.B.C.T. L.L.C. was founded in 2015 with a clear vision to cater to the needs of both the marine and industrial sectors. Beginning with a modest team of just three employees, the company embarked on its journey with a commitment to excellence and customer satisfaction.

Through unwavering dedication and a focus on delivering high-quality products and services, Majestic quickly gained recognition in the market. As industries grew and demands increased, so did the company's capabilities. Today, Majestic boasts a robust workforce comprising 200 dedicated professionals and counting.

This growth is a testament to Majestic Company's resilience, adaptability, and customer-centric approach. By consistently meeting and exceeding industry standards, Majestic continues to strengthen its position as a trusted partner in both the marine and industrial sectors.

**Mission:**

**"To deliver cutting-edge marine and industrial solutions that enhance efficiency, safety, and sustainability while exceeding customer expectations."**

**Goals:**

**Operational Excellence  
Customer Satisfaction  
Innovation  
Environmental Stewardship  
Employee Development**

## Vision:

**"To be the global leader in innovative marine and industrial technologies, setting the standard for excellence and driving positive change in the industry."**

## Values:

**Integrity**

**Customer Focus**

**Sustainability**

**Quality**

**Innovation**

**Safety**

Majestic S.B.C.T. L.L.C is your premier destination for comprehensive marine and industrial solutions. With a steadfast commitment to excellence, we specialize in delivering top-tier products and services tailored to meet the diverse needs of our clients. From cutting-edge marine services to robust industrial solutions, we ensure optimal performance, efficiency, and reliability in every project. Trust Majestic for all your marine and industrial requirements, where quality meets innovation.

Quality is at the heart of everything we do.

At Majestic SBCT LLC, we are committed to providing our clients with the highest quality products and services, backed by our expertise and dedication to excellence. With a focus on innovation, reliability, and customer satisfaction, we stand ready to partner with you to meet your marine and industrial needs effectively.

OUR RANGE OF

# PRODUCTS

- ✓ **Duramax** Marine Bearing & Seals
- ✓ **Chesterton** Protective Industrial Coatings, Mechanical Seals, Pump & Valve Packings, Gasketing technology, Hydraulic Seals , Bearing Protection seals, IIOT Monitoring Technology.
- ✓ **Metaline** Surface Protection Coating
- ✓ **NGP** Chemical Cleaning & Flushing
- ✓ **Durasin** Chocking & **KVM** Sealing Compound
- ✓ **PropGlide** Foul Release Coating
- ✓ **Sika** Adhesive Marine Sealants

# SERVICES

- ✓ Specialized Protective Coatings
- ✓ Pumps & Valves Overhauling
- ✓ Mechanical Seal Repairing
- ✓ Ship & Yacht Repair Works
- ✓ NGP Chemical Cleaning & Flushing
- ✓ Water & Wastewater Treatment
- ✓ GRP, GRE & HDPE Pipe Repairs
- ✓ Electrical Motor Repair Works
- ✓ Metal Casting & Machining
- ✓ Fabrication
- ✓ Laser Alignment & In-situ Line Boring
- ✓ Vibration Analysis & Dynamic Balancing
- ✓ Marine & Industrial Grouting Compound
- ✓ Hydraulic System Maintenance/Modification

- **Johnson Cutless Water-Lubricated Bearing Systems, Rudder Bearings & Stern Tube Filler**
- **Duramax Advanced Water-Lubricated Strut, Stern Tube & Rudder Bearing Systems**
  - ROMOR I Dovetailed Bearing Staves
  - ROMOR I Radius-Backed Bearings
  - ROMOR I Segmental Housings
  - DMX Polymer Alloy Bearings
  - Johnson Demountable Stave Bearings
  - DuraBlue Composite Water-Lubricated Stern Tube Bearings
  - DuraBlue Greaseless Composite Rudder Bushing
  - DuraBlue Greaseless Composite Thrust Washers and Wear Pads
- **Duramax Heat Exchange Systems**
  - DuraCooler SuprStak (Patent pending) with Turbo Tunnel Design
  - DuraCooler Keel Cooler
  - Demountable Keel Cooler
  - Duramax BoxCooler
- **Duramax Shaft Seal Systems**
- **Duramax Impact Protection Systems**
- **Duramax Industrial Products**

## Mechanical Seals, Pump Packings, Gaskets & Joint Seals and Equipment Monitoring

Our innovative, award-winning mechanical seals for pumps, agitators, mixers, and other rotating equipment simplify installation, improve reliability, and extend the performance of fluid handling. Companies around the world turn to A.W. Chesterton Company for expertise in mechanical seals — in design, selection, installation, field service, and more.

- **Pump and Valve packing:** Chesterton offers extensive applications expertise in pump packing solutions for rotating equipment—including design, selection, installation, testing, and more. Our innovative and award-winning packing solutions reduce power requirements for the pump and result in less leakage—lowering the total life cycle costs of the pumping system. Our advances in packing technology help customers stay compliant with increasingly challenging fugitive emissions requirements. Chesterton Valve Sealing Program results are proven by years of plant service. By combining the best achievable control technology with expert service, plants can maximize operating efficiencies.
- **Gaskets** prevent leakage of liquids or gases by forming impervious barriers between mating surfaces. From standard sheet gaskets and metal to custom moldable polymer gaskets, Chesterton has you covered.
- Chesterton now offers powerful monitoring of pumps and other rotating equipment monitoring with the Chesterton Connect™ sensor and app, and Chesterton Connect™ Cloud. These **easy-to-install sensors monitor** the health of both seals and equipment health, as well as vibration so you can spot possible issues before failure. Use the Chesterton Connect Cloud, an analytics web-based dashboard, to monitor all Chesterton Connect sensors 24/7 from wherever you are.
- **Polymer Seals:** Chesterton seals for fluid power equipment including presses, cylinders, and valve/control units offer unique, proven designs and highly durable, innovative materials for exceptional performance. Our wide variety of aftermarket hydraulic cylinder seal kits feature upgraded seals and components that offer longer service life, greater reliability, and improved performance.

FDA Food Grade Compliance Certification | Potable Water/NSF 61 Certified Products | Potable Water AU/NZS 4020:218.  
North American Certifications | European Certifications | CE Declarations of Performance | Approvals for Other Regions

ARC high performance coatings outpace the competition when it comes to chemical resistance, mechanical strength, and high-adhesion levels under extreme and variable conditions.

### METAL COATINGS

- Abrasion Resistance
- Castable Materials
- Ceramic Tile Replacement
- Chemical Resistance
- Emergency Repair
- Erosion / Corrosion Resistance
- High Impact
- High Temperature
- Metal Repair/Rebuilding
- Potable Water / NSF 61
- Pump Efficiency / Energy Reduction
- Rapid Cure
- Ship Deck

### CONCRETE COATINGS

- Chemical Resistance
- Concrete Protection
- Concrete Repair / Rebuilding
- Industrial Floors

ARC industrial coatings provide advanced protection for metal and concrete substrates across a wide spectrum of challenging applications. Our customers value ARC coatings' superior performance against erosion, corrosion, abrasion, and chemical attack. They count on Chesterton's low-VOC, 100% solids protective coatings to deliver long-term protection for critical industrial processes and equipment efficiency.

### INDUSTRY

- Chemical Processing
- Mining/Mineral & Ore Processing
- Oil & Gas
- Power Fossil
- Power Hydroelectric
- Power - Nuclear/Alternative
- Pulp & Paper
- Steel
- Water & Wastewater

### METAL PRODUCTS

5	BX5
5ES	HT-S
10	HT-T
855	I BX1
855N	I BX1 RC
858	MX1
BX1	MX2
BX2	MX FG

### APPLICATIONS

- Ducts & Chimneys
- Fans & Blowers
- Heat Exchangers
- Mixers & Agitators
- Pipes
- Pumps
- Screws & Augers
- Solids Handling Equipment
- Sumps, Drains & Secondary Containment
- Tanks & Vessels
- Valves & Fittings

### CONCRETE PRODUCTS

CS2
CS4
SL-E
791
797
988
NVE VC
NVE
EG-1
EG-1 FC

To extend the service life of **Tanks, Vessels & Pipelines** effectively, protective coatings have to be suitable for a variety of service conditions. Our products are used by satisfied customers for:

- Storage tanks for crude oil, hydrocarbons, chemicals
- Special tanks for urea, bio oils
- Biogas fermenters, bunker silos
- Production vessels and pressure tanks of all kinds
- Waste water ponds
- Swimming pool filters
- Gravel filters, sand filters, solid containers, tipping containers

**Marine Constructions & Offshore Installations:** Marine and offshore environments are some of the most demanding service conditions with UV, chlorides, erosion, corrosion combining to degrade structures and process equipment. Chesterton International GmbH provides solvent-free protection systems, tested in accordance with ISO 20340. The relevant corrosivity categories for the offshore industry (DIN EN ISO 12944-2 – classes C5-M and IM1-3) are also completely satisfied by our high-performance portfolio.

- Bridges, steel constructions for hydraulic engineering
- Pipelines and tubing
- Ship components and offshore platforms
- Sheet piles and harbor facilities

Our coatings for **Concrete Protection** can rebuild and protect damaged and new structures from chemical and erosive attack. In the range of "secondary containment" our products achieve a safe barrier against aggressive chemicals.

- Wastewater plants
- Sumps, oil and petrol separators
- Biogas fermenters
- Drip pans, tank pits

#### PRODUCTS:

- CP-Synthofloor 8016 Plus
- CP-Synthofloor 8010 Plus
- Ceramic-Polymer STP-EP
- Ceramic-Polymer STP-EP-HV
- Ceramic-Polymer SF/LF
- Proguard CN 100 iso
- Proguard CN 200
- Proguard CN 200 a.s
- Proguard CN-1M
- Proguard CN-1M
- Proguard CN-OC
- Proguard CN-OC
- Ceramic-Polymer XRC
- Proguard 169 (37)

#### PRODUCT ADVANTAGES

- Highest corrosion protection
- Outstanding adhesion
- Extreme abrasion resistance
- High resistance to impact
- High bending flexibility
- Excellent chemical and thermal resistance
- Direct application on metal, fiber reinforced composites
- and mineral substrates
- High savings on application costs
- Simple use
- Extreme Durability
- Solvent-free

Advanced repair and coating systems

With more than 60 years of experience, MetaLine stands for the protection, preservation and reconstruction of extremely impacted components.

### SOLUTIONS:

- Erosion / wear protection
- Corrosion protection
- Cavitation protection
- Chemical protection
- Automation / feeding optimization
- Repair / rupture / leakage
- Scratch / marking protection
- Non-stick characteristics
- Sound deadening

### PRODUCTS:

- MetaLine Series 500
  - *Elastomeric spray coatings*
- MetaLine Series 600
  - *Elastomeric repair compounds*
- MetaLine Series 700
  - *Elastomeric coatings*
- MetaLine Series XL
  - *Ceramic repair compounds*
- MetaLine 100 XTM
  - *Chemical protective coating*
- MetaLine 440
  - *Sound deadening coating*
- Coating accessories
  - *Tools and personal protective equipment (PPE)*

### APPLICATION AREAS / FIELD OF USE:

- General Manufacturing
- Pumps / Fluid-Flow-Technology
- Power Generation / Wastewater
- Mining / Quarrying
- Petrochemical
- Automation / Robotics / E-Power
- Pharma / Food / Hygiene
- Construction / Concrete
- Pulp / Paper / Glas / Recycling
- Automotive / Aviation
- Marine / Sub-Sea-Technology
- Surface Treatment

## >>Embracing our green future<<

NGP develops and manufactures non-toxic bio-cleaning products.

ISO9001 and 14001 compliance give us a certified operating efficiency. Our product range is sustainable with minimum risk to the environment.

Nordic Green Products has achieved the distinction of being certified by Eco-Lighthouse as of March 2023, reflecting our dedication to sustainable business practices.

### AREA OF USE

- Stainless steel
- Aluminum
- Glass flake
- Painted surfaces and more

### WITHOUT TOXINS

Can be released into the sea without harming the environment.

### ENVIRONMENTALLY FRIENDLY

Our products are 100% biodegradable and environmental friendly.

### COST EFFICIENT

A very cost efficient alternative to traditional cleaning methods.

NGP have extended operational experience with services, cleaning and life extension on marine/industrial equipment such as:

- Plate Heat Exchangers
- Box Coolers
- Vacuum pipes
- Tube Coolers
- Radiators / Engines
- Evaporators
- Engines
- Piping
- Fresh water systems
- Chilled water systems
- Fire lines
- Deluge
- Industrial cooling systems
- Fish farms
- Potable water tank
- Prevent and remove scaling

## KVM SEALING COMPOUND

## DURASIN CHOCKING COMPOUND

**DURASIN** is an epoxy based compound containing 100% solids.

A PRODUCT for mounting/installation of ;

- Main Engines and Propulsion System,
- Gearboxes,
- Transom Flanges (Of Jet Propulsion System),
- Pedestal Blocks or Bearings,
- Shaft Seals, Stern-Tube and Strut Bearings,
- Rudder Pintle Bearings, Steering Gears, Mooring and Anchor Windlass Winches, Crane Pedestal Bearings,
- FIFI and Cargo Pumps,
- Shaft Generators, D G Sets,
- Bow Thruster Propulsion Systems, Compressor Foundations and
- Generator from the Power Generating Systems etc....

**KVM Sealing Compound** is the ideal product for fireproof, gas- and watertight sealing of cable transits in bulkheads and decks of type A 60. The sealing compound is suitable for all types of cables used in shipbuilding.

KVM Sealing Compound is non-toxic and incombustible. This 2-component sealing compound is made only of inorganic raw materials.

All tested cable specimens still met the requirements of DIN 89158, DIN 89159 and DIN 89160 after six weeks of contact with KVM Sealing Compound under exposure of water.

In addition KVM also conforms to the specifications of both IEC 92-3, 1965, and JIS 3410, 1976

## PropGlide Foul Release Coating

PropGlide is a foul-release coating that when applied to your propeller(s) and running gear will increase fuel efficiency and the performance of any vessel. This super slick coating keeps your propellers clean from marine growth for extended periods of time. Gain advantages by applying PropGlide to your vessel.

1. **Increase in Prop Speed Means a Faster Vessel:** PropGlide dramatically reduces drag on the propeller and running gear caused by even the smallest fouling. Since growth is unable to attach to PropGlide you will achieve higher RPM and vessel speed.

2. **Improved Fuel Efficiency:** Clean props and running gear provide more efficiencies to the engine and less fuel is burned and money is saved!

3. **Biocide-Free and Environmentally Friendly:** PropGlide is not a prop antifoulant, it is a foul-release coating. It contains no harmful biocides and performs because it is a super slick coating!

4. **Ease of Application:** PropGlide is easy to apply for Do-It-Yourselfers and not just for the professional applicator.

BUILDING TRUST

Sika Adhesive Sealants

Sika's full range of sealants for joint sealing buildings and civil engineering structures includes top-class elastic sealing and bonding solutions to meet all of the project's needs.

- Sikaflex®-295 UV
- Sikaflex®-291i
- Sikaflex®-292i
- Sikaflex®-296
- Sikaflex®-290 DC PRO
- Sikaflex®-591
- Sikaflex®-221
- Sikaflex®-298U
- Sika® Primer-215
- Sika® Primer-206 G+P
- Sika Aktivator
- Sika Sausages
- Sika Cartridge Gun

# SPECIALIZED PROTECTIVE COATINGS

We offer internationally proven and on-site self-processing repair & coating technologies for various industrial challenges - changing surfaces for the better!

# PUMPS & VALVES OVERHAULING

Enhance the longevity and efficiency of your industrial pumps and valves with our expert Overhauling service. Our skilled team provides thorough maintenance and refurbishment, ensuring peak performance and minimal downtime for your critical equipment.

# MECHANICAL SEAL REPAIRING

Specializing in Mechanical Seal Repairing, we offer expert solutions to restore efficiency and reliability.

# SHIP & YACHT REPAIRS

Discover top-tier Ship & Yacht Repairs tailored to maintain peak performance and safety. Our skilled team delivers expert craftsmanship and meticulous attention to detail, ensuring your vessel remains seaworthy and dependable.

# **CHEMICAL CLEANING & FLUSHING**

Experience thorough Chemical Cleaning & Flushing services designed to enhance system efficiency and reliability.

# **CHEMICAL CLEANING & FLUSHING**

Experience thorough Chemical Cleaning & Flushing services designed to enhance system efficiency and reliability.

# GRP, GRE & HDPE REPAIR

In industries where durability and resistance are paramount, materials like Glass Reinforced Plastic (GRP), Glass Reinforced Epoxy (GRE), and High-Density Polyethylene (HDPE) are commonly used.

Our specialized repairing services address issues that may arise with these materials, ensuring their longevity and functionality.

Our team is equipped with the expertise and advanced tools needed to handle repairs efficiently, ensuring minimal downtime and extended service life for your critical components.

# ELECTRICAL MOTOR REPAIR WORKS

Where Majestic specialize in maintaining, repairing, and optimizing electrical motors to ensure peak performance and reliability. With our expertise and commitment to quality, we keep your operations running smoothly and efficiently

# METAL CASTING

Explore our Metal Casting where craftsmanship meets innovation to deliver bespoke metal components of unparalleled quality.

# FABRICATION

Discover our comprehensive fabrication services designed to meet your exact specifications and exceed your expectations. From concept to completion, we deliver precision, quality, and reliability.

# MACHINING

Explore our Metal Casting & Machining services, where craftsmanship meets innovation to deliver bespoke metal components of unparalleled quality. With advanced technology and meticulous attention to detail, we fulfill diverse industrial requirements with precision and reliability.

## LASER ALIGNMENT & IN-SITU LINE BORING

Our **Laser Alignment services** ensure precise alignment of critical components, including shafts, couplings, turbines, and motors, using advanced laser technology. This enhances operational efficiency, reduces energy consumption, and extends the lifespan of machinery. Our In-situ Line Boring services offer on-site precision machining to repair or modify worn-out bores and holes in machinery without the need for disassembly. This capability minimizes downtime, saves on transportation costs, and restores equipment to its optimal functionality quickly and effectively. Restores equipment to its optimal functionality quickly and effectively.

## VIBRATION ANALYSIS & DYNAMIC BALANCING

Majestic specializes in Vibration Analysis and Dynamic Balancing services, essential for industries where precision, reliability, and efficiency are critical. With years of expertise and state-of-the-art equipment, we provide comprehensive solutions to enhance the performance and longevity of machinery across various sectors.

# MARINE & INDUSTRIAL GROUTING SERVICES

Specializes in Marine & Industrial Grouting Services, offering expertise in providing durable and reliable solutions for infrastructure stabilization, machinery support, and structural reinforcement across marine and industrial sectors.

# HYDRAULIC SYSTEM MAINTENANCE/MODIFICATION

Best guidance and get the package suiting your needs and budget adequately. Our reliable and strategic suggestion for maintenance and modification is what clients prefer us for.

Our firm is specialized in the procurement of Hydraulic Equipment, Hydraulic seals, hydraulic fittings, pumps and motors, hoses, control valves, hydraulic valves, power packs, clamps, couplings, pneumatic seals, hydraulic hose repair, seal fabrication, online support and Instrumentation functional organizations for the Oil & Gas, Marine, Transportation, and Construction industries.

# WATER & WASTEWATER TREATMENT

Majestic specializes in comprehensive Waste & Wastewater Processing services, providing sustainable solutions for industries and municipalities to manage and treat waste efficiently and responsibly.
